POSTSECONDARY EDUCATION RESEARCH
 List the names of any training programs or colleges you have researched that will help you fulfill your postsecondary education plans. Record the date you did the research. How was the research conducted... via interview, phone, computer or actual visit to the school?

Program/School	Date

YEARLY REVIEW OF EDUCATIONAL PLANS
 Each year, review your academic performance and educational plans. Check to see whether or not your plans still match your future career goals. Answer the following on a separate sheet of paper and store it in your ICP.

Academic Achievement

- In the courses you scored "C" or below, what reasons do you think might be for the cause of this low grade?
- What changes can you make to improve your grades? Develop an improvement plan and set goals for yourself.
- Will your current grades meet minimum admission requirements for the programs/schools you are interested in? If not, what areas do you need to improve?

Educational Plans

- Have you made any changes to your high school plans that might affect your career goals and postsecondary plans? Make sure you are taking classes to meet your career goals.
- Review your choices for possible postsecondary education. Can you narrow your choices or better define your choices.
- Have you discussed your high school & educational plans with your parents/guardians, teachers, and counselor? Write down their advice and tips to help you later.
